

# STRATEGIC PLAN 2025-2030

## VISION

To be the leading sustainable logistics provider in Asia-Pacific by 2030, connecting businesses to opportunities while setting new standards for environmental responsibility and operational excellence.

## MISSION

We deliver excellence through innovation, connecting businesses to global opportunities while minimizing environmental impact and maximizing value for all stakeholders.

## STRATEGIC PRIORITIES

1. Digital Transformation - Implement AI-driven route optimization and real-time tracking
2. Sustainability Leadership - Achieve carbon neutrality by 2028 through fleet electrification
3. Customer Excellence - Achieve NPS > 70 across all customer segments
4. Operational Efficiency - 15% reduction in unit costs through process automation
5. Talent Development - Build future-ready workforce with digital skills

## **CORE VALUES**

Innovation - We embrace change and continuously seek better solutions

Integrity - We act with honesty and transparency in all dealings

Sustainability - We protect our planet for future generations

Excellence - We strive for the highest quality in everything we do

Collaboration - We achieve more together than alone
